

AHMED WALEED

XR / AR / VR Unity Developer | Technical Lead | Project & Product Delivery

Islamabad, Pakistan | +92 335 8595274 | ahmedwaleed.xr@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

XR/VR Unity Developer and technical project lead with hands-on experience designing, developing, testing, optimizing, and launching immersive VR training simulations using Unity and C#. Delivered three professional VR training applications (Welding, Manufacturing Facility, and Drywall & Carpentry) spanning development, multiplayer functionality, QA, release validation, and cross-functional coordination. Skilled in Unity 2D/3D, C#, AR/VR/XR development, Photon Fusion multiplayer networking, Agile/Scrum delivery, QA, and stakeholder communication. PMP and Google Project Management trained, combining strong technical development skills with project and product delivery experience.

CORE SKILLS

Platforms & Devices: Meta Quest 2, Meta Quest 3, Meta Quest 3S (standalone VR); Android-native AR deployment

XR / Unity: Unity 6, Unity 2D/3D, C#, VR Training Simulations, AR/VR/XR Development, 3D Environments, Interaction Systems, UI Systems, Physics, Performance Optimization

XR SDKs & Toolkits: Meta Interaction SDK, Meta XR SDK, XR Interaction Toolkit, OpenXR, AR Foundation, ARCore, ARKit, Vuforia

Multiplayer Networking: Photon Fusion 2, Photon PUN2, Synchronization, Ownership, Spawning, Room/Session Management

Performance & Optimization: App Size Reduction, FPS/Frame-Rate Optimization, Draw Call Reduction, Standalone Headset Profiling

QA & Release: Functional, Regression & Multiplayer Testing, Bug Reporting, Build Validation, Release QA

Tools & PM: Blender, Visual Studio, Git/GitHub, ClickUp, Slack, Agile/Scrum, Sprint Planning, Stakeholder Communication, Release Management

PROFESSIONAL EXPERIENCE

XR / VR Developer | PTTI | New York, USA (Remote)

Jul 2025 – Present

- Developed and contributed to three professional standalone VR training simulations — Welding, Manufacturing Facility, and Drywall & Carpentry — built and deployed for Meta Quest 2, Quest 3, and Quest 3S in Unity 6.
- Implemented interactive VR training mechanics, 3D environments, tools, safety workflows, UI systems, and object interactions using the Meta Interaction SDK and XR Interaction Toolkit.
- Built multiplayer VR functionality using Photon Fusion 2 and PUN2; resolved synchronization, ownership, spawning, rejoin, and room-transition issues across networked sessions.
- Partnered with the team on a performance-optimization initiative that reduced app size and improved FPS by an average of 45–50% on standalone Quest hardware.
- Led structured QA across single-player and multiplayer workflows; created test scenarios, reproduced bugs, verified fixes, and performed regression testing.
- Supported build validation, release readiness, product launch, and post-release issue investigation.
- Coordinated with developers, QA, artists, and product stakeholders across the development and delivery lifecycle.

Team Lead | MakTek | Dubai, UAE

Mar 2024 – Sep 2024

- Led AI-based product development (KChat, a GPT-based chatbot) and coordinated team workflows, product testing, and business requirements.
- Managed Agile/Scrum delivery including sprint planning, backlog grooming, testing cycles, client demos, and release milestones.
- Oversaw UI/UX, API integration, QA, and cross-functional coordination through product rollout.

E-Commerce Trainer | Higher Education & Regulatory Authority, KPK | Pakistan

Jul 2025 – Sep 2025

- Trained students in e-commerce strategy and practical campaign execution as part of a national youth upskilling initiative.

SEO & Digital Marketing Trainer | KUST / NAVTTC | Pakistan

Mar 2025 – Jul 2025

- Trained students in SEO, content marketing, and digital strategy; developed case studies demonstrating real-world campaign impact.

WordPress Developer | Byte Flow | Kohat, Pakistan

Jan 2024 – Feb 2024

- Developed responsive websites using WordPress, HTML, and CSS with a focus on performance optimization.

Marketing Executive | Faaray Group of Companies | Kohat, Pakistan *Mar 2023 – Dec 2023*

- Created and executed digital marketing and branding strategies for client acquisition and social media growth.

Management Intern | Zawiya Academy | Rawalpindi, Pakistan *Aug 2022 – Oct 2022*

- Assisted in marketing and operational management for academic programs.

Intern, National Expansion Plan | NIC Kohat | Kohat, Pakistan *Feb 2022 – Sep 2022*

- Supported startup incubation and business research.

SELECTED XR / AR / VR PROJECTS

PTTI VR Training Simulation Suite — Unity 6, C#, Meta Quest 2/3/3S, Meta Interaction SDK, XR Interaction Toolkit, Photon Fusion 2/PUN2

- Three standalone VR workforce-training applications (Welding, Manufacturing Facility, Drywall & Carpentry): immersive environments, interactive tools, training workflows, multiplayer functionality, testing, debugging, release validation, and product launch.
- Contributed to a performance pass achieving a 45–50% improvement in app size and FPS on standalone Quest hardware.

AR Tourist Guide — Unity, C#, Vuforia, Android (Native), Blender

- Native Android AR application displaying 3D historical monuments with image-target recognition, audio guidance, interactive navigation, and mobile-optimized assets; recognized at XR Creator Con (XRCC) 2026.

AR Bowling Game (Final Year Project) — Unity, C#, Vuforia, ARCore, ARKit, Android (Native)

- Native Android/mobile AR bowling game with plane detection, realistic physics, interactive scoring, TextMesh Pro UI, and mobile performance optimization.

AR E-Commerce Try-On — Unity, TikTok Effect House, Android (Native)

- AR try-on experience for jewelry and watches using live-camera 3D overlays, linked with e-commerce APIs for a real-time shopping experience.

Car Simulation Game — Unity 3D, C#

- Realistic car simulation focused on vehicle physics and dynamics, using .fbx assets and C# scripting for vehicle control.

2D-to-3D Drawing Application (AR Drawing Tool) — Unity, Custom Shaders

- AR tool converting 2D sketches into real-time 3D visualizations, aimed at artists, students, and designers.

KChat — GPT AI Chatbot (MakTek Project)

- GPT-based chatbot with a curated knowledge base for contextual, source-referenced answers; delivered end-to-end via Agile Scrum.

AWARDS & RECOGNITIONS

- Award Recipient — AR Historical Tourist Guide, "Visitor Companion: See More, Miss Nothing" use case category, XR Creator Con (XRCC) 2026
- Participant — MIT Reality Hack 2026

PROJECT MANAGEMENT & CERTIFICATIONS

- PMP Project Management Training / Exam Preparation — project planning, stakeholder management, risk, Agile methodologies, execution, monitoring, and delivery
- Google Project Management Certificate — Agile methodologies, project planning, execution, and team coordination
- Meta AR Developer Specialization — AR development, 3D asset integration, interaction design, Meta Spark, Unity, PlayCanvas
- Mobile Marketing, Optimization Tactics & Analytics — University of California, Irvine
- Meta Social Media Marketing Certificate • Meta Front-End Developer Certificate

EDUCATION

BS Computer Science — Kohat University of Science & Technology (KUST)

2020 – 2024

LANGUAGES

English, Urdu, Hindko, Pashto
